

## Eclipse Day at Bari University

IBM Italia has the pleasure to invite Bari University students and faculty members attend the Eclipse Technical Briefing in

### Aula II, Palazzo delle Aule

from 10:30 to 13:00 on May 2nd, 2006  
Via Orabona 4 – Dipartimento di Informatica

The briefing is conducted in English by Doug Tidwell, IBM Senior Software Engineer, with the following agenda:

- 10:30** Welcome and University Relations introduction
- 10:40** The Italian Eclipse Community
- 10:50** Eclipse overview
- 11:00** Installing, running, and updating Eclipse
- 11:05** Java development with Eclipse, including Ant, JUnit, and Javadoc
- 11:20** Building graphical applications
- 11:50** Break
- 12:10** Extending Eclipse with plug-ins
- 12:40** Eclipse plug-in architecture
- 13:00** Lunch

"This one-day workshop will present an overview of the technology and architecture of Eclipse, a popular open source integration platform for doing Java development and hosting application development tools. The major components of Eclipse and useful plug-ins available on the Internet will be presented. Students will leave the workshop with a clear understanding of the Eclipse platform and its many uses".

For further study, lab exercises will be available after the workshop.

Intermediate: 15:00 – 17:00 Lab. Turing, DIB 3rd floor

Advanced: 15:00 – 17:00 Lab. Shannon, DIB 3rd floor

---

**About the Instructor:** Doug Tidwell is a Senior Software Engineer with IBM's University Relations Group. His job is to work with professors and students worldwide, giving away IBM software and educational materials. He has more than 20 years of development experience, and is the author of O'Reilly's book on XSLT. You can reach him at [dtidwell@us.ibm.com](mailto:dtidwell@us.ibm.com).
